

During the rest of the 2024 election season, a single issue,

A Woman's Choice, will determine the outcome across the entire country. As an initial campaign focused on the 18 to 30 year old population in the United States of America, we will conduct an 88-day campaign called "[Voices for Choices](#)."

As an issue-based campaign, this project will be open to all participants between the ages of 11 and 88, and it will require no identification or legal status definitions.

Commencing on the 19th of August and continuing through the 19th of October, we will introduce this project to 22 million Unvoters, who we simply ask to indicate their support for the 28th Amendment to the United States, NextGenERA . All responses will be

private and confidential.

Aligned organizations will be invited to participate on a weekly basis with the following stipulations:

1. Actively campaigning for an elected position in the United States of America
2. Have taken a public position on the record of support for the Equal Rights Amendment.
3. Has a website dedicated to this specific issue.
4. Places an order to be included in the campaign for a total of \$888.88
